

Jared W. Magnani, MD, MSc

Associate Professor of Medicine

Division of Cardiology, Vascular Medicine Institute

Primary Email: magnanij@pitt.edu
Secondary Email: magnanijw@upmc.edu
Assistant: Bonnie Burgman
Assistant's Email: burgmanbl@upmc.edu
Phone number: 412.647.2762

Key questions defining research program:

- Association of social determinants of health to cardiovascular outcomes
- Health literacy and cardiovascular outcomes
- How to develop and implement patient-centered interventions to improve patient experience of cardiovascular disease
- Relation of such interventions to patient outcomes

Key words describing research program:

- Social determinants of health
- Health literacy
- Cardiovascular epidemiology
- Disparities

Titles for shovel-ready research projects:

- Health literacy and outcomes in atrial fibrillation
- Social factors and CVD risk and risk metrics
- Social determinants of health and atrial fibrillation treatment and outcomes
- Improving patient engagement and adherence

Data sources for shovel-ready research projects:

- Primary data obtained from patient assessments
- Electronic health record
- Community-based and publicly available cohort data (e.g., NHANES, Nationwide Inpatient Sample)
