

Chester Oddis, MD

Professor of Medicine

Division of Rheumatology and Clinical Immunology

Primary Email: cvo5@pitt.edu

Assistant: Margie Jones

Assistant's Email: jonema2@pitt.edu

Phone Number: 412.383.8861

Key words describing research program:

- polymyositis
- dermatomyositis
- Interstitial lung disease
- phenotype
- autoantibody

Titles for shovel-ready research projects:

- Scholarly project in Myositis: Clinical epidemiological research in Polymyositis and Dermatomyositis as well as myositis associated interstitial lung disease research projects include looking at clinical phenotype and prognosis of myositis specific autoantibody, efficacy and safety of medications used in myositis, predictors and outcomes of interstitial lung disease in myositis, patient reported outcomes and functional outcomes in myositis, etc.

Data sources for shovel-ready research projects:

- Myositis database
