Key questions defining research program:

- Health related quality of life and patient-centered outcomes in kidney disease patients
- Population health management for improving delivery of CKD care
- Use of electronic health record data to evaluate key clinical outcomes and health disparities
- Sleep disorders, fatigue, depression in dialysis patients

Key words describing research program:

- Health related quality of life
- Sleep apnea
- Depression
- Electronic Health record
- Hypertension

Titles for shovel-ready research projects:

- Physical functioning in CKD patients – prevalence and correlates
- Sleep and hypertension in SPRINT study

Data sources for shovel-ready research projects:

- Survey data collected in CKD clinics as part of ongoing QI project
- Data collected as part of SPRINT-SLEEP study
