

AT A GLANCE

UNIVERSITY OF PITTSBURGH | SCHOOL OF MEDICINE | DEPARTMENT OF MEDICINE

UPMC MEDICAL EDUCATION TRAINING PROGRAMS AT A GLANCE

At UPMC, our Internal Medicine Training Program is dedicated to developing physicians who will effectively work in current and future health care systems. We strive to train physicians who become agents of change and actively transform systems to provide the best possible care to their patients. We accomplish our goals by immersing residents in environments that foster and provide high-quality patient-centered care. This is intertwined with an innovative curriculum, strong mentorship programs, involvement of residents in research as early as their internship year, and the design of individualized educational experiences to correspond to the career objectives of each resident. We remain committed to our residents and are continually responsive to their professional needs and career goals.

Program Director: **Jennifer A. Corbelli, MD MS**

UPMC Presbyterian/UPMC Montefiore

INTERNAL MEDICINE TRAINING PROGRAMS

CATEGORICAL PROGRAM

The innovative curriculum provides trainees with a strong foundation emphasizing flexibility in the second and third years to allow for individualization of professional development. This serves as excellent preparation for subspecialty fellowship training, or for the practice of general internal medicine. If you have a specific area of interest, you may want to consider superimposing a track onto the Categorical Program curriculum (similar to a major in college or area of concentration in medical school).

NRMP Number: **1652140C0**

Program Director: **Jennifer A. Corbelli, MD MS**

Email: corbellija@upmc.edu

WOMEN'S HEALTH TRACK

Intended for trainees with a strong interest in gender-specific medicine to gain additional expertise in the areas of routine gynecologic care and medical care of the pregnant patient resulting in comprehensive care of women both in primary care and subspecialty arenas.

NRMP Number: **1652140C1**

Track Director: **Sarah Tilstra, MD, MS**

Email: tilstrasa@upmc.edu

GENERALIST TRACK

- Generalist Pathway
- Hospitalist Pathway

Develops trainees as peer experts in the field of general medicine through unique longitudinal clinical experiences, a specialized curriculum, and a tailored project focusing on clinical, educational, or health advocacy issues. This track prepares residents for careers in ambulatory, primary care, hospitalist medicine, or academic general internal medicine.

NRMP Number: **1652140C0**

Track Director: **Peggy Hasley, MD, MHSc**

Email: hasleypb@upmc.edu

GERIATRICS TRACK

Develops trainees as peer experts in the field of aging through unique longitudinal clinical experiences, a specialized curriculum, and a tailored project focusing on clinical, research, and health policy issues specific to older adults.

NRMP Number: **1652140C0**

Track Director: **Rollin Wright, MD, MA, MPH**

Email: rmw27@pitt.edu

AT A GLANCE

UPMC MEDICAL EDUCATION TRAINING PROGRAMS AT A GLANCE

GLOBAL HEALTH TRACK

Incorporates a strong emphasis on clinical experiences and scholarly work in global health within core internal medicine competencies allowing for the training of physicians for leadership roles in shaping the global health agenda and improving the health of all citizens of the world.

NRMP Number: **1652140C3**

Track Director: **Thuy Bui, MD**

Email: buith@upmc.edu

RESEARCH PATHWAYS

ABIM RESEARCH PATHWAY

Designed for trainees with a strong background in research and who are committed to a career as a physician scientist. This six- to seven-year program, depending on the subspecialty, allows trainees to maximize research training opportunities during residency and fellowship.

NRMP Number: **1652140C4**

Associate Program Director: **Jessica Bon Field, MD, MS**

Email: bonjm@upmc.edu

Advisory Board: **Thomas Kleyman, MD**

Email: kleyman@pitt.edu

Sally Wenzel, MD

Email: wenzelse@upmc.edu

CLINICAL SCIENTIST TRACK

Combines any of the internal medicine clinical programs with training in clinical research, including a personally mentored research project, longitudinal research development seminar, and an intensive two-month curriculum in clinical research methods.

NRMP Number: **1652140C0**

Track Director: **Kathleen McTigue, MD, MPH, MS**

Email: kmm34@pitt.edu

Associate Program Director: **Jessica Merlin, MD, PhD, MBA**

Email: merlinjs@upmc.edu

INTERNATIONAL SCHOLARS

Trains an elite group of international medical graduates to take up leadership roles in academia and research internationally through an innovative curriculum combining excellence in clinical care and formal training in biomedical research coupled with close mentoring by experienced and established faculty members.

NRMP Number: **1652140C2**

Co-Research Track Directors: **Kathleen McTigue, MD**

E-mail: kmm34@pitt.edu

Clinical Track Director: **Peter Bulova, MD**

Email: bulovapd@upmc.edu

ONE-YEAR TRAINING PROGRAMS

PRELIMINARY YEAR

Offers an intensive year of internal medicine training, nearly identical to the categorical internship year, for trainees whose future specialties require it and an opportunity to continue in the Categorical Program if positions are available.

NRMP Number: **1652140PO**

Program Director: **Jennifer A. Corbelli, MD MS**

Email: corbellija@upmc.edu

TRANSITIONAL YEAR — UPMC Medical Education

A flexible, broad-based one-year clinical and academic training experience sponsored by the departments of Internal Medicine and Emergency Medicine and based at the flagship UPMC Presbyterian/UPMC Montefiore campus. All residents engage in a unique quality and patient safety training curriculum and many develop research projects, establishing mentors within the UPMC system.
